Vladlena Panchenko
Front-end Engineer
Gdansk, Poland | Work permit in Poland

@lazy-ocean
Vladlena Panchenko
Portfolio: lazy-ocean.vercel.app ☀️

Front-end engineer with a great comprehension of JavaScript/TypeScript and React. Highly collaborative and product-oriented with a dedication to creating accessible, performant and user-friendly UI components and applications.

Work experience

✖️ **VML**, remote
Front-end Engineer | *06/2021 – current*

Skills:
TypeScript, React.js, Next.js, MUI, Jest, testing-library, headless CMS, monorepo, git, Emotion, Azure, Node.js.

- On an international scrum team, developed, tested, **launched** and maintained a modern, responsive, **data-heavy e-commerce React app** built on top of a headless CMS.
- Contributed to the **custom component library** used by content editors within the CMS: created complex, scalable, accessible and reusable React.js components with developer-friendly API and attention to wireframes and UX.
- **Took a leadership role** as the most skilled frontend developer on the project. **Mentored team members** in TypeScript and React.js. Ensured smooth adoption of new technologies and domain knowledge.
- **Led the frontend team** through a shift in business priorities, transitioning a portion of the application to an upgraded tech stack and a new e-commerce provider within tight timeframes.
- **Closely collaborated** with backend, QA, design and business teams to deliver end-to-end features and support the project during all delivery phases. Took ownership of provided solutions, raised issues, researched and discussed approaches to achieve the best quality both from architectural and UI/UX perspectives.

EY (Ernst & Young), office, then remote
Employer Brand & Communications specialist | *2016 – 2020*

Skills:
Copywriting, Localization, Internal Communications, SMM

- **Took ownership** of a previously disorganised internal communications topic (up to 5,000 recipients). Managed external mailings (nearly 150,000 recipients) on career-related company news.
- **Moderated EY Careers website**, created and translated content during transition to AEM managed platform.
- **Facilitated promotion campaigns**: collaborated with the design and business teams on creating publications.
- Managed EY Careers social media pages. Worked on ads and analytics.
